ECTS points

The program enlists a total of 840 hours, 30 ECTS points, which is in agreement with the criteria formulated by the universities. The education program includes courses, visits to conferences as well as training and guidance by the supervisors.

The 30 ECTS points are distributed according to the following directive;

- Courses: 15 ECTS points (range 12-18)
- Congress and symposia visits and work visits abroad 7 ECTS points (range 4-10)
- Guidance and training by the supervisors: 8 ECTS points (range 6-10)

Training and Supervision plan

All PhD students must complete the form with the Training and Supervision Plan. In the plan arrangements are described on the courses to be followed and on the frequency and the extent of the training and the supervision they receive by their supervisors in the Training and Supervision plan.

Exemptions

PhD students may be exempted to follow a mandatory course if they have followed a similar course earlier or if they have gained the acquired knowledge in another way. They may also be exempted for courses, conference visits, and training based on earlier relevant training and/or working experience. All PhD students, also those working externally outside ACTA, should make a Training and Guidance plan in which possible exemptions are described.
